Top 10 Winter Damage “Must Repair” List for Denver Homes

DENVER Feb. 26, 2007 - On the heels of one of the most damaging winters in Denver, homeowners have more than enough projects on their spring fix-up lists. The frigid temperatures, snow, ice and high winds stimulated repair needs beyond the typical “honey –do’s.”

So, where to begin? Start with the top-10 “must repair” list, prioritized by Done Right!™, an online and print marketplace of home care professionals.

1. Damaged shingles and leaky roofs
2. Cracked plumbing pipes
3. Leaks and water marks near windows, especially skylights
4. Cracked and leaky gutters
5. Chipped, cracked and weather-beaten driveways and sidewalks
6. Warped doors and cracked weather stripping
7. Broken sprinkler system pipes
8. Eroded garage door weather stripping
9. Scratched floors from winter grime
10. Broken fences and gates

Homeowners can call their favorite service professionals to assist with these priority repairs or, for guaranteed help, check out the Done Right! print and online directory www.doneright.com.
